### **DETAILED ACTION**

Applicant's amendments filed December 18, 2007 have been entered

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the arguments filed December 18, 2007 and the remarks in declaration by Mr. Patel filed January 8, 2008 on the superior stability of the instant method produced have been considered. In using the instant method, the stability is achieved more than 3-fold when compared to that without the omega-6 fatty acid. Furthermore, the cited prior art does not teach or fairly suggest the use of omega-6 fatty acid for stabilizing hydrocortisone 17-butyrate.

The examiner notes that the co-pending application 11/432,742 is considered as conflicting patent application to the instant application. However, because the instant application has an earlier filing date and there is no other outstanding rejection, the instant application will pass on to issue and 11/432,742 will be subject to obviousness double patenting.

Claims 1-18 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to San-ming Hui whose telephone number is (571) 272-
